## **POLISH ARTIST OPENS SHOW**

Polish "fiber" artist and sculptor, Jedrzej (Yan-rej) Stepak, will be an artist-in-residence on our campus during the month of October. For the past 14 years the artist has been working with wicker as his medium of expression, incorporating it in tapestry work and as stage sets for the theater. He will build a sculpture of this material on the campus during his residency. His recent works are built out of doors, integrating the surrounding "green" environment with the wicker sculpture. The artist was welcomed at a reception on Sunday, October 16, opening the photographic exhibition, "STEPAK'S GARDENS", featuring many of his outdoor sculptures. The show will be exhibited through November 6, in Reed Hall 160. Gallery Hours are posted around the campus. Stepak will present a "gallery talk" and slide presentation on Thursday, October 20, in Reed Hall 160 at noon. He will be happy to answer your questions about his work and his country.
